

MAIN PROJECT CREDITS PAGE

REQUIREMENTS

Create a page that includes a list of your images
The credits on the web site do not have to be MLA

Due

In order to receive a grade for this assignment you need to have the pages on the server by the designated date and have completed all of the following requirements

Thumbnails

Create a thumbnail for each image in your site
Give the source of your images (site)
Link back to the source site
Next to each thumbnail give the name/number of the image
Give yourself credit for creation and design

Table

Create a table for your images and credits
Make sure that the text and images line up correctly

CSS

Must include comments
Must be linked from page
All styles and positions
Needs to have styles for menu

Meta Tags

This page must include Meta Tags for:
Author
Keywords: about 15 - 20 words
Description: description of your site about 15 - 20 words

W3C

You need to have your page validated at W3c (combine this validation with the rest into one pdf)
<http://validator.w3.org/>

Upload

This page the CSS and the W3C validation need to be uploaded to your server space.

Test

Once your page and W3c are on the server test to make sure everything works
Must work in all browsers and both platforms
